Calibration Verification Kit Now Available for CardioChek Professional Analyzers

Synergent Biochem, Inc. recently commercialized a calibration verification kit that works with the CardioChek Plus and CardioChek PA professional analyzers. This is exciting news for our customers as calibration verification is often required as part of routine quality assurance programs.

While PTS Diagnostics does not directly manufacture a calibration verification kit, the following information will assist you in purchasing Synergent Biochem's calibration verification kit. The kit, which has three distinct levels, can be ordered by contacting Synergent Biochem, Inc. at +1-562-809-3389 and requesting catalog number 815.

Please call PTS Diagnostics Customer Service at +1-317-870-5610 (direct) or 1-877-870-5610 (toll-free US only) if you have any general questions or comments. Contact Synergent Biochem (www.synergentbiochem.com) for specific questions about the calibration verification kit (Catalog Number 815).
